

Youssef Elsayed Abdelaziz

Email: Youssefelsayed@gmail.com | Phone: +20 120 868 2811 | Location: Obour City, Qalubia, Egypt
LinkedIn: www.linkedin.com/in/youssef-elsayed-543695344

Professional Summary

A motivated Computer Science student at Misr International University with a strong passion for cybersecurity engineering. Equipped with certifications in Ethical Hacking, Introduction to Cybersecurity, Certified in Cybersecurity domains from Cisco Networking Academy, Foundations of Cybersecurity from Google via Coursera, and additional courses from LinkedIn Learning and OPSWAT Academy in Critical Infrastructure Protection, Cybersecurity Awareness, Generative AI, and Emotional Intelligence. Proficient in identifying cyber threats, conducting penetration testing, and developing secure online practices, aiming to contribute to organizational security.

Education

Bachelor of Science in Computer Science *Misr International University, Cairo, Egypt* 2023 – Present

- Current level: Freshman 1, English proficiency: B2.
- Focused on building foundational skills in programming, networking, and cybersecurity.

Certifications

- | | |
|---|---|
| • Ethical Hacker | <i>Cisco Networking Academy, Jan 2025</i> |
| • Introduction to Cybersecurity | <i>Cisco Networking Academy, Jan 2025</i> |
| • Foundations of Cybersecurity | <i>Google via Coursera, Jan 2025</i> |
| • Cybersecurity Awareness: Cybersecurity Terminology | <i>LinkedIn Learning, Jan 2025</i> |
| • What Is Generative AI? | <i>LinkedIn Learning, Jan 2025</i> |
| • Developing Your Emotional Intelligence | <i>LinkedIn Learning, Jan 2025</i> |
| • Introduction to Critical Infrastructure Protection (ICIP) | <i>OPSWAT Academy, Jan 2025 (Expires: Jan 2026)</i> |
| • CC Course Pre-assessment | <i>Cisco Networking Academy, May 2025</i> |
| • CC Domain <i>AccessControl</i> | <i>Cisco Networking Academy, May 2025</i> |
| • CC Domain <i>1SecurityPrinciples</i> | <i>Cisco Networking Academy, May 2025</i> |
| • CC Domain 2 Incident Response | <i>Cisco Networking Academy, May 2025</i> |
| • CC Domain 5 Security Operations | <i>Cisco Networking Academy, May 2025</i> |
| • Domain 4 Network Security | <i>Cisco Networking Academy, May 2025</i> |
| • CC Certified in Cybersecurity | <i>Cisco Networking Academy, May 2025</i> |

Skills

- **Technical Skills:** Penetration testing, vulnerability scanning, social engineering awareness, network security, application security, cloud/mobile/IoT security, generative AI tools, artificial intelligence (AI) awareness, critical infrastructure protection, hardware design, data structures, object-oriented programming (OOP).
- **Soft Skills:** Emotional intelligence, teamwork, communication.
- **Tools:** Knowledge of pentesting tools (as per Cisco training).
- **Languages:** Arabic (Native), English (B2 level).

Projects & Courses

- Completed Ethical Hacker course, mastering methodological hacking, penetration testing documents, and post-exploitation activities.
- Developed skills in information gathering and vulnerability scanning through Cisco Networking Academy.
- Explored cybersecurity career paths and online safety practices via Introduction to Cybersecurity course.
- Successfully completed CC Certified in Cybersecurity program, including CC Course Pre-assessment, CC Domain *AccessControl*, *CCDomain1SecurityPrinciples*, *CCDomain2IncidentResponse*, *CCDomain5SecurityOperations*.
- Strengthened understanding of cybersecurity terminology and information security awareness via LinkedIn Learning's Cybersecurity Awareness course (Jan 2025).
- Enhanced emotional intelligence and interpersonal skills through LinkedIn Learning's Developing Your Emotional Intelligence course (Jan 2025).
- Acquired knowledge in protecting critical infrastructure systems through OPSWAT Academy's Introduction to Critical Infrastructure Protection (ICIP) course (Jan 2025).
- Designed and implemented "MIU QuickBit," a food ordering website for the university, showcasing web development skills.
- Developed a 16-bit adder and 2's complement hardware device, demonstrating expertise in digital circuit design.
- Created a student grades management program using data structures, highlighting proficiency in algorithm optimization.
- Built a comprehensive phone store management program using object-oriented programming (OOP), reflecting strong software design skills.
